### About Nova Blitz:

Nova Blitz is a real-time, digital, trading card game set in a future universe ruled by five Aspects of energy: Arcane, Tech, Divine, Nature, and Chaos. As a Nova, you channel that energy to summon units, use powers, and knock out the opposing Nova.

Built from the ground up for quick games and constant player interactions, every match of Nova Blitz is a perfect blend of strategy and action. Each turn plays out in real time, and both players play at the same time. This cuts out all the downtime players experience in a normal trading card game – games take less than 5 minutes each.
